

Educator Prep Data Dashboards

Our Purpose

As the Data and Program Accountability unit of TEA's division of Educator Leadership and Quality, we strive to ensure data quality and integrity in every stage of the reporting and continuous improvement processes. We aim to support learning organizations through our responsiveness and adaptability.

Our True North Statement

Better, Faster, More Actionable Data.

Data Analysis Processes

Generate

Report

Act

Data-informed decisions
Program improvement

Improvements

Generate

- Updated ECOS
- Changed timeline
- Easier uploads

Process

- Data Validation
- Exception requests and process

Analyze

- SAS coding
- View by standards
- Break into data groups

Communicate

- Data Dashboard
- Improved reporting

Act

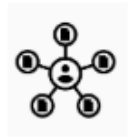

- Data literacy campaign
- Data community outreach
- Data work group

Data Dashboards

Launching The Dashboards

Educator Preparation Data Dashboards

Accountability

The Accountability System
for Education Preparation
(ASEP)

Consumer Information

Educator preparation
programs and their
admission trends

Performance Indicators

Track teachers' journeys
from application to retention

Certification Pass Rates

Learn about the certification
and content exams

Campus Leadership Feedback

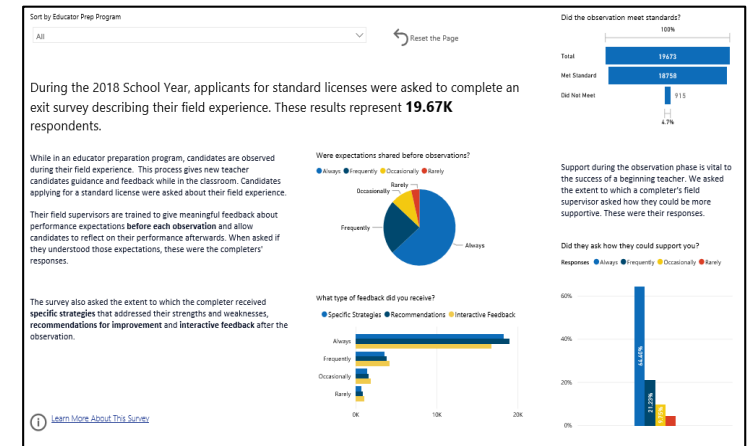

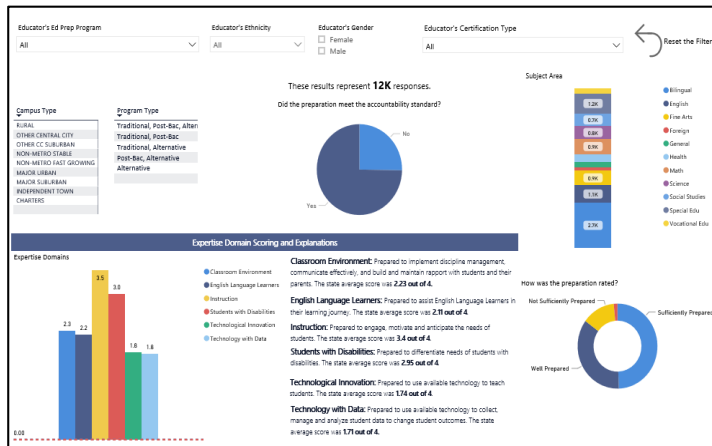

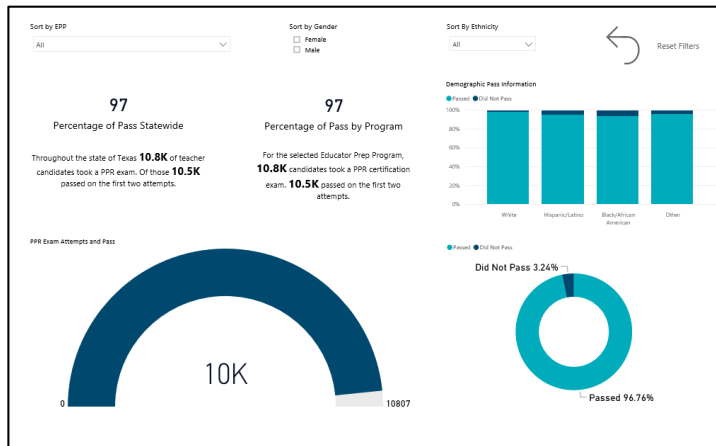

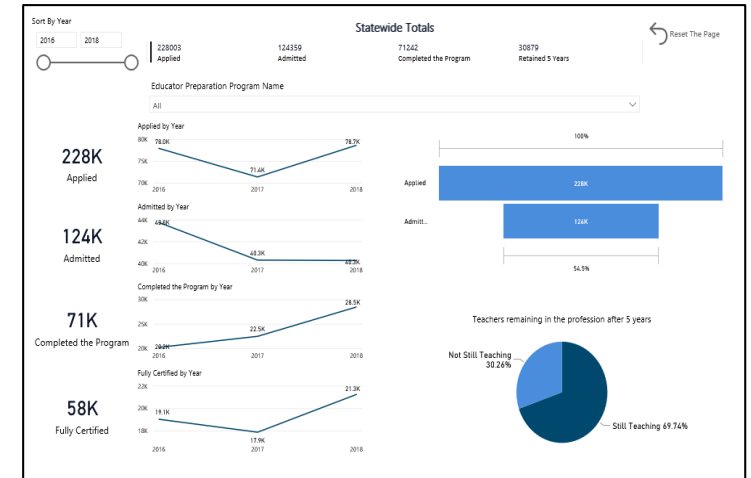

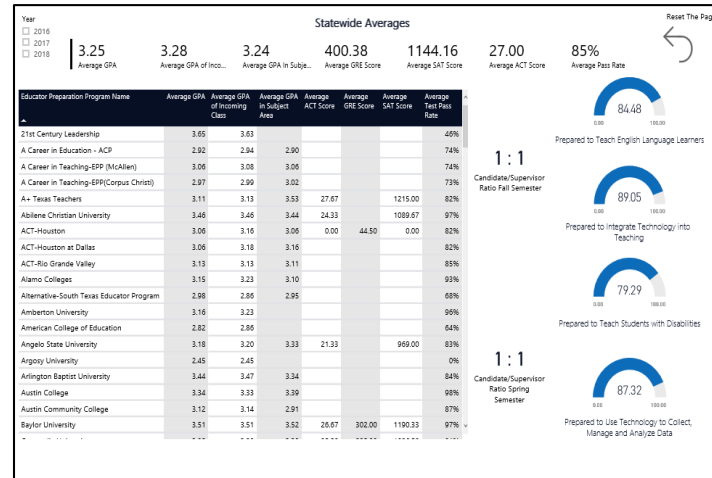

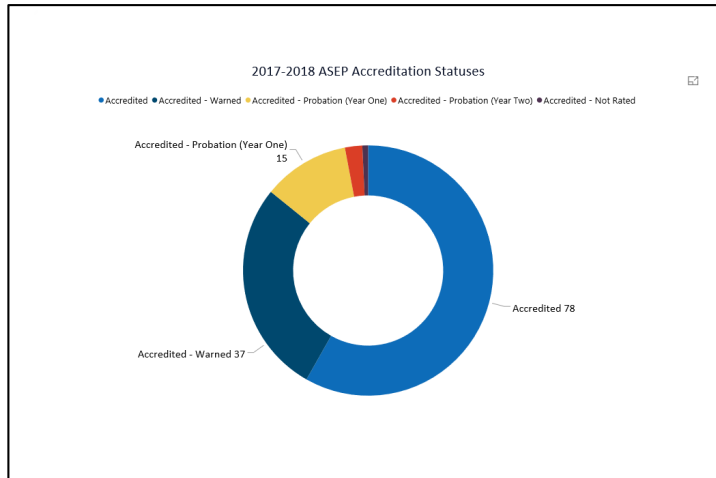

Principals' perspective on
new teachers' preparation

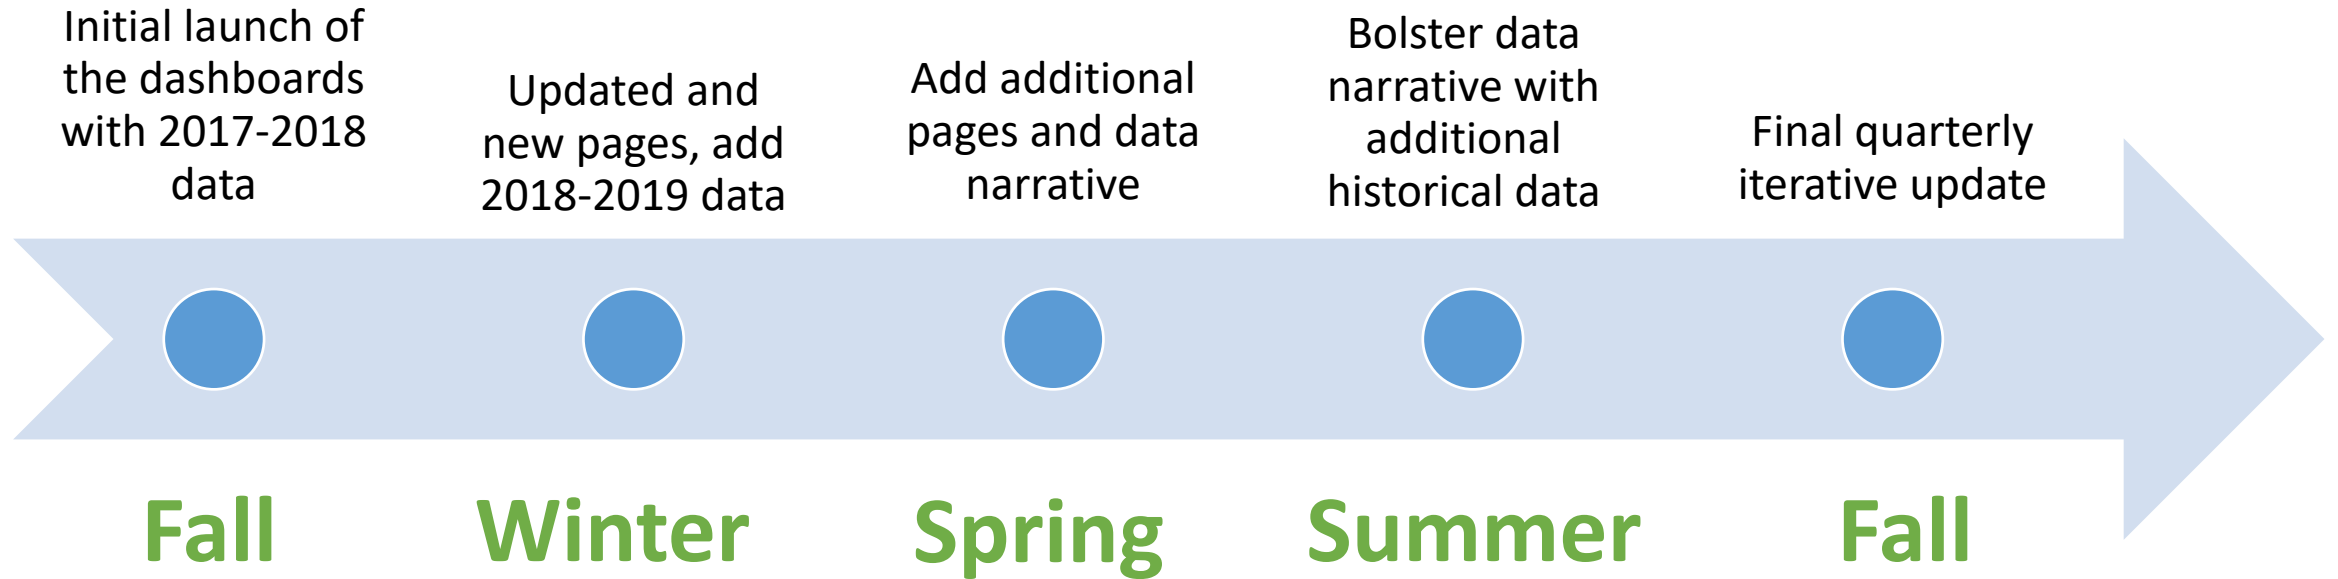

Field Observations

Teacher feedback about
their field experiences

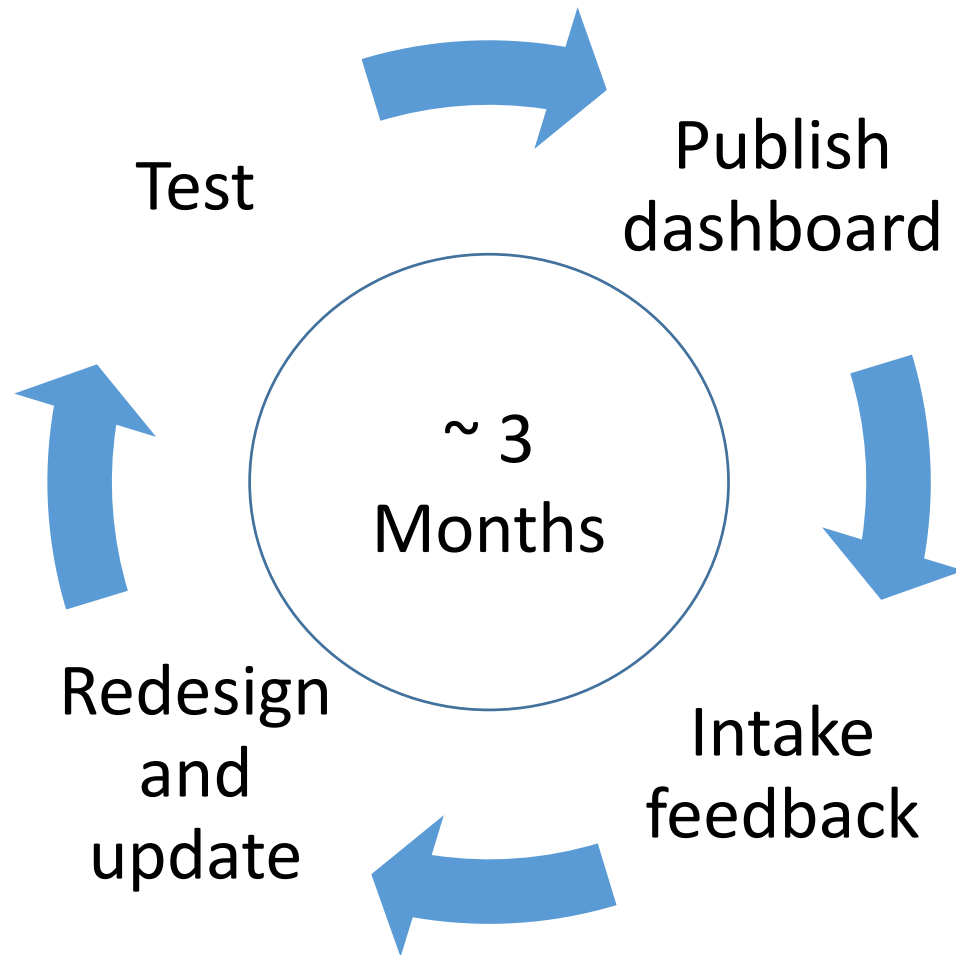

Launching The Dashboards

Dashboard Iterations

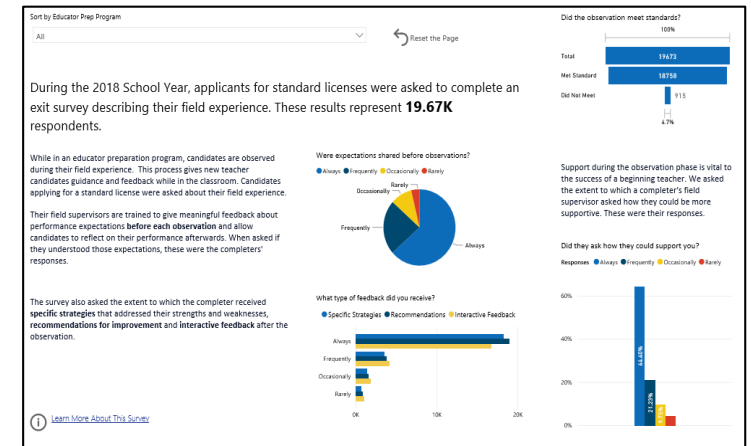

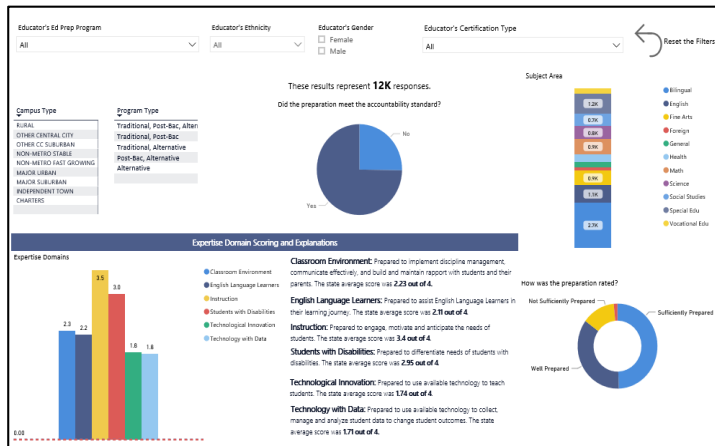

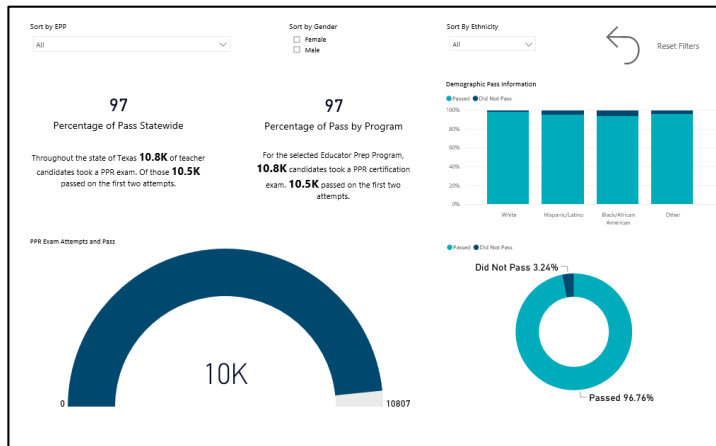

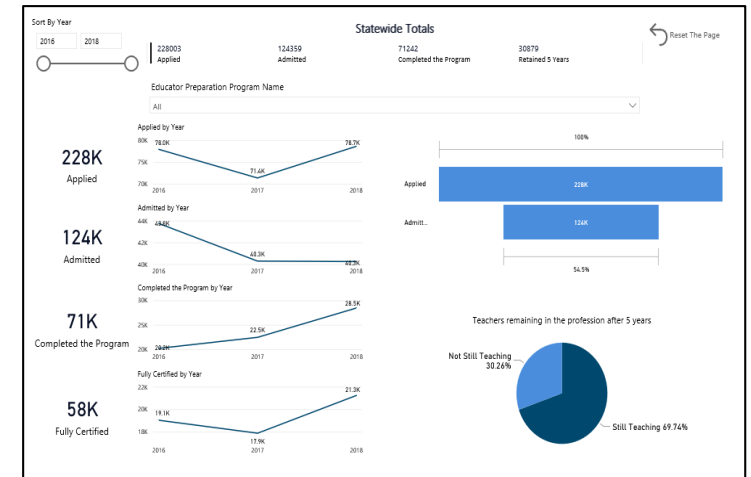

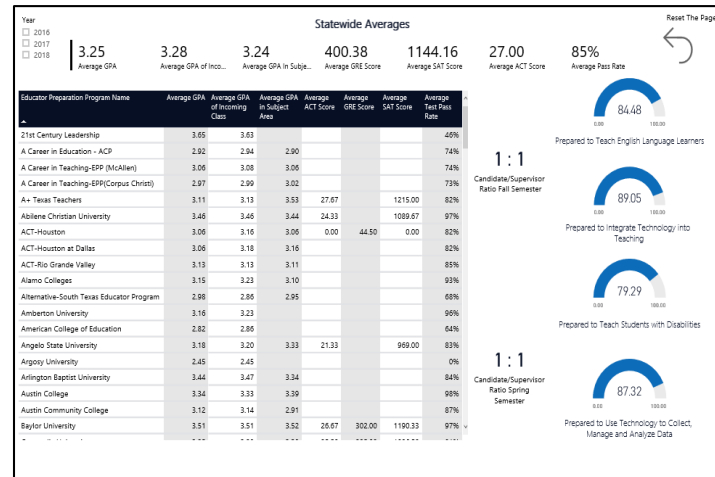

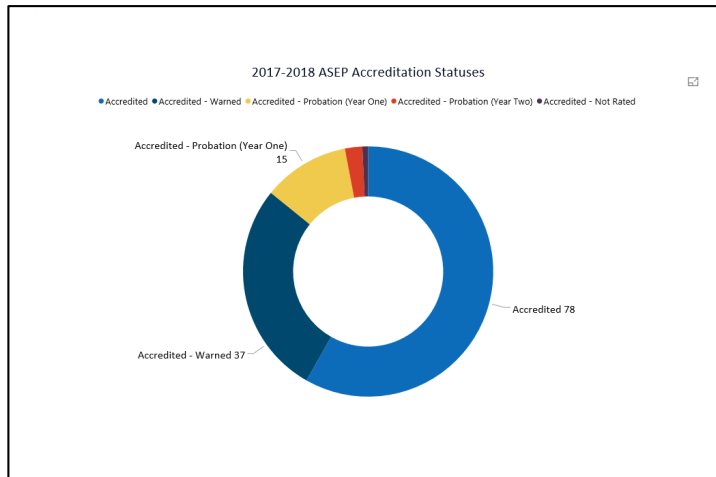

Dashboard Launching Process

- Maintaining a log of changes
- Determining when to roll out changes
- Navigating priorities
- Programming
- Publishing release notes

A View of the Dashboards

- **Communicate improvement ideas**
 - What would you like for someone to learn about your program?
 - What do you communicate about your program that could be captured in the dashboard?
- **Share the dashboards**
 - Embed in your communications
 - Send around to colleagues for their perspective

Self Reflection

- **What other people might use this data?**
- **How else could you use these dashboards?**
- **What would the ideal dashboard look like in iteration 1.4?**

Keep in Touch!

Thank you for joining!

We look forward to our continued work together!
